

MAGNETIC THIN FOILS

CREATE
THE
DIFFERENCE

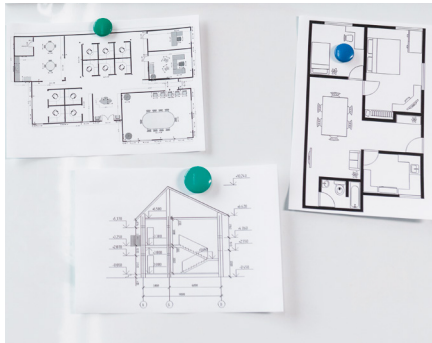

TECHNO PRIME® MAGNET

Magnetism makes walls attractive

If you want to bring a little magic to walls, TECHNO PRIME® MAGNET is exactly what you need. These stainless steel surfaces from Alanod are equipped with ferromagnetic capabilities, offering perfect magnetic adhesive functionality. TECHNO PRIME® MAGNET is so versatile that you can integrate it in furniture, doors, or any other flat interior surface.

TECHNO PRIME® MAGNET is available in coils and sheets with a thickness of 0,1mm and 0,2mm and a width of up to 1.350mm including pre-applied primer for HPL/CPL on both sides.

The magnetism makes walls and boards more versatile to use

Perfect for office spaces

TECHNO PRIME® MAGNET can be attached to any wall, to create a space for presentation, organisation, brain storming or decoration with magnets and all kinds of notes and sheets.

Inspiring kid's rooms

Attach the magnetic foil to a piece of children's furniture and kids can start to create their own collection of images, notes, collectibles and more. This way, a piece of furniture becomes a place to inspire children.
